

Austrian Society of Neuropsychopharmacology and Biological Psychiatry

Österreichische Gesellschaft für Neuropsychopharmakologie
und Biologische Psychiatrie (ÖGPB)

Activities Report 1998 – 2011

Vorwort

The Austrian Society of Neuropsychopharmacology and Biological Psychiatry (ÖGPB) was founded on 17th June 1998 in Vienna and the founding members were members of the Department of Psychiatry of the Medical University of Vienna as well as of Public Hospitals and of the Psychosocial Services of Vienna. The aim of the Society has been to support research as well as continuous medical education on the topic of neuropsychopharmacology and biological psychiatry. Furthermore, it was one of the aims defined to inform the public on the current understanding of psychiatric topics. The founding members agreed to have congresses on the topic of neuropsychopharmacology and biological psychiatry as well as to publish consensus statements on different topics in clinically relevant areas where psychotropic medication is used and biological changes have been assumed.

Troughout the years the ÖGPB attracted a large number of colleagues as members (now 401) and the annual conferences, traditionally held in November, supplement the Austrian conferences on psychiatry and psychotherapy with a specific focus on neuropsychopharmacology and biological psychiatry. Since psychotropic medication is used also in general practices specific symposia are directed to general practitioners. More than 20 consensus statements and specific expertises have been published with members of the ÖGPB and the topics also were presented in press conferences to reach the public via general media.

To support young colleagues the awards for clinical psychiatry, schizophrenia as well as bipolar disorders were given to promising colleagues in the field based on their published works in internationally renowned journals as well as on case reports that demonstrated their detailed knowledge of the field. In order to reach doctors in the time of their specialisation in psychiatry and psychotherapy, specific educational courses have been arranged in the ÖGPB Academy where colleagues were able to obtain the latest news as well as an understanding of the topics related to psychiatric diagnoses and treatment possibilities in an psycho-social-biological context.

It is our great pleasure to present to you this summary of the activities of our Society and we do hope that the ÖGPB will flourish in the next decade for a better understanding and treatment of our patients.

ÖGPB Publications

ClinicumNeuropsy
Official Journal of the ÖGPB

CliniCum neuropsy is the official organ of the ÖGPB which has been published since 2001. The Journal is released six times a year and its circulation currently accounts for 11.500 pieces. The audience includes not only psychiatrists and neurologists but also general practitioners, gynaecologists and paediatricians.

ÖGPB Academy 2008–2011

Module	Date	Topic	Speaker
1	8.10.2008	Neurobiology of Depression; Drug Therapy of Depression	Kasper Siegfried Butterfield-Meissl Christine
2	21.11.2008	Affective Disorders in Elder Patients; Disorientation, Delirious Disorders (the 3D's)	Rainer Michael Psota Georg
3	14.1.2009	Electroconvulsive Therapy (ECT); Transcranial Magnetic Stimulation (TMS) and Deep Brain Stimulation	Frey Richard
4	25.3.009	Sleep; Therapeutic Sleepdeprivation and Light-treatment	Saletu Bernd Willeit Matthäus
5	6.5.2009	Pharmaceuticals during Pregnancy; Psychotropic Drugs in Children and Adolescents	Klier Claudia Quiner Sylvia
6	24.6.2009	Eating disorders; Personality Disorders	Bailer Ursula Kapfhammer Hans-Peter
7	9.9.2009	Diagnosis in Psychiatry	Ebner Roswitha
8	20.11.2009	Anxiety; Somatoform Disorders	Hofmann Peter Aigner Martin
9	10.3.2010	Sexual Medicine F52, F64, F65	Aigner Martin
10	12.5.2010	Psychopharmacotherapeutic Possibilities and Limitations	Kapfhammer Hans-Peter
11	10.6.2010, 24.6.2010	ADHD, Imaging Genetics	Kutzelnigg Alexandra Pezawas Lukas
12	8.9.2010, 13.10.2010	Essentials of Pharmacotherapy; Monoaminhypothesis, Serotonin, Dopamin	Praschak-Rieder Nicole Willeit Matthäus
13	10.11.2010	Status of Imaging Techniques in Treatment Planning and in the Therapeutic Process; Electrophysiology	Lanzenberger Rupert
14	27.1.2011	Functional Neuroimaging and Relevance in Medical Practice; Pharmacogenetics and Optimization of Medication	Lanzenberger Rupert, Stein Claudius, Schosser Alexandra
15	13.4.2011	Organical Mental Disorders (ICD 10/F00–F09): Diagnosis, Development, Comorbidity	Psota Georg
16	11.5.2011	Organical Mental Disorders (ICD 10/F00–F09): Drug Therapy, Consensus Statements, Guidelines	Rainer Michael
17	15.6.2011	Biological and Social Risk Factors for the Development of Dementia; Treatment Resistant Psychiatric Disorders	Kutzelnigg Alexandra Spindelegger Christoph
18	14.9.2011	The Impact of Dopamine on the Pathogenesis and the Treatment of Schizophrenia; The monoamine Hypothesis of Depression and the Neurotransmitter Serotonin	Willeit Matthäus Praschak-Rieder Nicole
19	18.11.2011	Anxiety Disorders: Practice-Relevant Discussion of the Course of Illness, Diagnosis and Therapy Options; Somatoform Disorders	Hofmann Peter Aigner Martin
